Professional Summary

Experienced professional transitioning from Project Management and Web Development to Software Engineering. Bringing 3+ years of expertise in project coordination and web development with transferable skills in frontend development, UI/UX design, and full-stack application development. Proven ability to manage cross-functional projects and deliver responsive web solutions that led to improved workflow efficiency and user experience, and eager to contribute to the Software Engineering field with impactful, user-centered applications.

Work Experience

Virtual Assistant | [Ethiocounselor Educational Consultancy](#)

May 2021 – Aug 2021 • Ethiopia (Remote)

- Managed administrative tasks, documentation, and client communications.
- Scheduled meetings and coordinated daily operations.
- Assisted with record keeping, data entry, and report preparation.
- Supported the team in handling student and client inquiries.

Project Manager | [Ethiocounselor Educational Consultancy](#)

Aug 2021 – Mar 2023 • Ethiopia (Remote)

- Promoted from Virtual Assistant to Project Manager within three months.
- Coordinated project planning, task assignments, and execution across multiple initiatives.
- Collaborated with team members to ensure timely, high-quality delivery of projects.
- Maintained comprehensive project documentation and monitored progress against milestones.
- Improved communication and workflow efficiency between team members and stakeholders.
- Led and coordinated a small team while managing multiple projects simultaneously.

Web Development Intern | [Oasis Infobyte](#)

Oct 2023 • Remote

- Assisted in frontend web development and UI/UX design for web applications.
- Improved website functionality and usability through targeted enhancements.
- Participated in testing, debugging, and web application improvements.

Web Design & Development Intern | [Everlink Digital Technologies](#)

Jul 2024 – Oct 2024 • Adama, Ethiopia

- Designed and developed responsive web interfaces for client projects.
- Contributed to frontend development and website improvements that enhanced user experience.
- Collaborated on client projects and contributed to user experience enhancements.
- Assisted in website maintenance and performance optimization.

Education

Bachelor of Science in Software Engineering | [Adama Science and Technology University \(ASTU\)](#)

Adama, Ethiopia • June 2026

Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Software Engineering, Web Development, Mobile App Development, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Human-Computer Interaction, Project Management, Software Testing & Quality Assurance.

Bachelor of Arts in Marketing Management | Saint Mary's University

Adama, Ethiopia • June 2027

Relevant Coursework: Principles of Marketing, Consumer Behavior, Strategic Marketing, Business Communication, Project Management, Entrepreneurship, Business Management, and Organizational Behavior.

Skills

Programming Languages	JavaScript, TypeScript, Java, Python, SQL
Frontend Development	React.js, HTML5, CSS3, Responsive Web Design, UI/UX Design, REST API Integration
Backend & Database	Node.js, MongoDB, Database Design & Management
Software Engineering	Data Structure and Algorithm, Software Development Life Cycle (SDLC), Software Testing & Debugging, Requirements Analysis, System Design, Technical Documentation
Tools & Productivity	Git, GitHub, Visual Studio Code, MS Office Suite, Google Workspace
Administrative & VA	Data Entry, Record Keeping, Email Management, Calendar & Schedule Management, Report Preparation, Document Management, Task Coordination, Online Research, Zoom, Google Meet, Microsoft Teams, Notion
Project Management	Project Planning, Task Coordination, Team Collaboration, Workflow Management, Communication, Documentation and Reporting
Quality Assurance	Functional Testing, Regression Testing, Bug Reporting, Usability Testing, Quality Control
AI & Emerging Tech	Machine Learning Fundamentals, Optical Character Recognition (OCR), Robotics Fundamentals, Arduino Programming
Soft Skills	Problem Solving, Communication, Leadership, Adaptability, Critical Thinking, Organizational Skills, Analytical Thinking, Teamwork, Self-Management

Projects

Handwritten Amharic OCR System

- Developed a web-based OCR system for recognizing and processing handwritten Amharic text using Python and Machine Learning.
- Designed the complete UI/UX ensuring intuitive workflows for document upload, text recognition, and result visualization.
- Built the frontend application with React and integrated it with OCR functionality for a seamless user experience.
- Participated in system testing, model evaluation, and performance improvements throughout the development lifecycle.

HealthLink EHR System

- Developed an Electronic Health Record (EHR) system to help healthcare providers manage patient information efficiently.
- Designed the complete UI/UX and developed the frontend interface for managing patient records and healthcare workflows.
- Focused on creating an intuitive, responsive, and user-friendly experience for healthcare professionals.

Church Website Design & Development

- Developed a responsive church website to improve online presence and community engagement.
- Designed and developed website pages for events, sermons, announcements, and contact information.
- Implemented responsive layouts and user-friendly navigation for cross-device accessibility.

Doctor Assistant Mobile App Design

- Designed a mobile application to support doctors in managing patient interactions, symptom tracking, and medical documentation.
- Created wireframes, user flows, prototypes, and UI designs with a focus on usability and efficiency.

Xonno Cryptocurrency Landing Page

- Designed a landing page for a cryptocurrency platform covering trading, staking, and digital asset management.
- Created responsive web and mobile layouts using modern UI components with strong visual consistency and conversion-oriented design.

Furniture Lottery Web Application

- Contributed to the design and development of a web application for furniture-related lottery and promotional activities.
- Assisted in implementation, testing, debugging, and functionality improvements to enhance user experience.

Certifications

Data Analysis Certificate | [Women Techsters Bootcamp](#), [Tech4Dev](#)

April 2024 • Remote

- Completed an intensive data analysis bootcamp focused on practical, industry-relevant data skills.
- Gained hands-on experience in data collection, cleaning, analysis, and visualization using Excel, Python, and SQL.
- Developed proficiency in data-driven decision making and analytical problem-solving.

Arduino Hardware Programming Workshop | [Robotics & Artificial Intelligence Special Interest Group \(SIG\)](#), [ASTU Mechanical Club](#)

Sep 2023 – Jun 2024 • Adama, Ethiopia

- Completed beginner-level Arduino hardware programming with foundational knowledge in robotics, embedded systems, sensors, and microcontroller programming.

Leadership Service Recognition Certificate | [ASTU Evangelical Christian Students' Fellowship](#)

2024 • Adama, Ethiopia

- Recognized for faithful service and leadership in organizing student programs, mentoring, and community engagement.
